SUMMARY

Motivated B.Tech Computer Science student with strong foundation in full-stack web development, specializing in Python and Django. Experienced in building scalable web applications and intelligent systems. Passionate about solving real-world problems using efficient and optimized solutions.

EDUCATION

B.Tech in Computer Science RR Institute of Modern Technology, Lucknow	2025 – 2028 (Expected)
Diploma in Computer Science and Engineering Jawahar Lal Nehru Polytechnic, Mahmudabad, Sitapur	2022 – 2025

TECHNICAL SKILLS

- **Languages:** Python, Java
- **Web Technologies:** HTML, CSS, Bootstrap, Django
- **Databases:** SQLite
- **Tools:** VS Code, PyCharm, Git, GitHub
- **Operating Systems:** Windows

TRAINING

Web Development Training Techpile Private Limited	2024
• Learned backend development using Python and Django. • Worked on frontend technologies including HTML, CSS, and Bootstrap. • Developed real-time web applications with database integration.	

PROJECTS

- E-Commerce Website** (Python, Django, HTML, CSS, Bootstrap)
- Developed a full-featured e-commerce web application with product listing, cart, and checkout system.
 - Implemented user authentication, order management, and admin dashboard.
 - Designed responsive UI for seamless experience across devices.
 - Integrated database for product storage and order tracking.
 - Ensured secure login and session management.
- Facial Recognition Attendance System** (Python, Django, OpenCV)
- Built an automated attendance system using facial recognition technology.
 - Integrated OpenCV for real-time face detection and recognition.
 - Developed backend using Django to store attendance records in database.
 - Improved attendance accuracy and reduced manual errors.
 - Created admin panel for managing student data and attendance reports.

ACHIEVEMENTS

- Successfully completed multiple academic and practical projects in Python/Django.
- Recognized for strong analytical thinking and teamwork skills.
